About the GXO Spin-Off

XPO expects to spin off its logistics segment in the third quarter of 2021, creating two, pure-play industry powerhouses. The separation would create two independent public companies with distinct investment identities and service offerings in vast addressable markets. GXO would be the largest pure-play contract logistics provider in the world, and XPO would be a leading provider of transportation services, primarily less-than-truckload transportation and truck brokerage. Completion of the spin-off is subject to various conditions, and there can be no assurance that the transaction will occur or, if it does occur, of its terms or timing.
