Optional Redemption: The Issuer may not redeem the Notes prior to October 1, 2015. The Issuer may redeem the Notes for cash, in whole but not in part, at its option, on any business day on or after October 1, 2015 if the last reported sale price of the Issuer's common stock has been at least 130% of the conversion price then in effect for at least 20 trading days (whether or not consecutive), including the trading day immediately preceding the date on which the Issuer provides notice of redemption, during any 30 consecutive trading day period ending on, and including, the trading day immediately preceding the date on which the Issuer provides notice of redemption. No "sinking fund" is provided for the Notes, which means that the Issuer is not required to redeem or retire the Notes periodically.

The redemption price will equal 100% of the principal amount of the Notes to be redeemed, *plus* accrued and unpaid interest to, but excluding, the redemption date, payable in cash, *plus* a "make-whole premium" payment or delivery, as the case may be, in cash, shares of the Issuer's common stock or a combination of cash and shares of the Issuer's common stock, at the Issuer's election, equal to the present values of the remaining scheduled payments of interest on the Notes to be redeemed through October 1, 2017 (excluding interest accrued to, but excluding, the redemption date). The present values of the remaining interest payments will be computed using a discount rate equal to 4.50%.

If the Issuer elects to pay some or all of the make-whole premium in shares of its common stock, then the number of shares of common stock a holder will receive will be that number of shares that have a value equal to the amount of the make-whole premium payment to be made to such holder in shares, *divided by* the product of (1) the average of the last reported sale prices of the Issuer's common stock over the five trading day period ending on, and including, the third trading day immediately preceding the redemption date *and* (2) 98.0%.

The Issuer must make the make-whole premium payment on all Notes called for redemption prior to the maturity date, including notes converted after the date the Issuer provides the notice of redemption and prior to the related redemption date. The Issuer will give notice of any redemption not less than 70 nor more than 90 calendar days before the redemption date by mail or electronic delivery to the trustee, the paying agent and each holder of Notes. See "Description of Notes—Optional Redemption" in the Preliminary Prospectus Supplement.

Adjustment to Conversion Rate upon Conversion upon a Make-Whole Fundamental Change:

The following table sets forth the number of additional shares of the Issuer's common stock, if any, to be added to the conversion rate per \$1,000 principal amount of Notes for conversions in connection with a "make-whole fundamental change" (as defined in the Preliminary Prospectus Supplement):

The exact stock prices and effective dates may not be set forth in the table above, in which case:

- If the stock price is between two stock prices in the table or the effective date is between two effective dates in the table, the number of additional shares will be determined by a straight-line interpolation between the number of additional shares set forth for the higher and lower stock prices and the earlier and later effective dates based on a 365-day year, as applicable.
- If the stock price is greater than \$75.00 per share (subject to adjustment in the same manner as the stock prices set forth in the column headings of the table above as described in the Preliminary Prospectus Supplement), no additional shares will be added to the conversion rate.
- If the stock price is less than \$12.89 per share (subject to adjustment in the same manner as the stock prices set forth in the column headings of the table above as described in the Preliminary Prospectus Supplement), no additional shares will be added to the conversion rate.

Notwithstanding the foregoing, in no event will the conversion rate per \$1,000 principal amount of Notes exceed 77.5795 shares of common stock, subject to adjustment in the same manner as the conversion rate as set forth under "Description of Notes—Conversion Rights—Conversion Rate Adjustments" in the Preliminary Prospectus Supplement.
